

VA LMS Domain Structure

Toolkit Reference B

What This Is:

This document describes the organization of the VA LMS domains. Domains are patterned after VA organizational structure and are used to manage learners, administrators, courses (items), catalogs, facilities, locations, and permissions to access data.

Why This Is Useful:

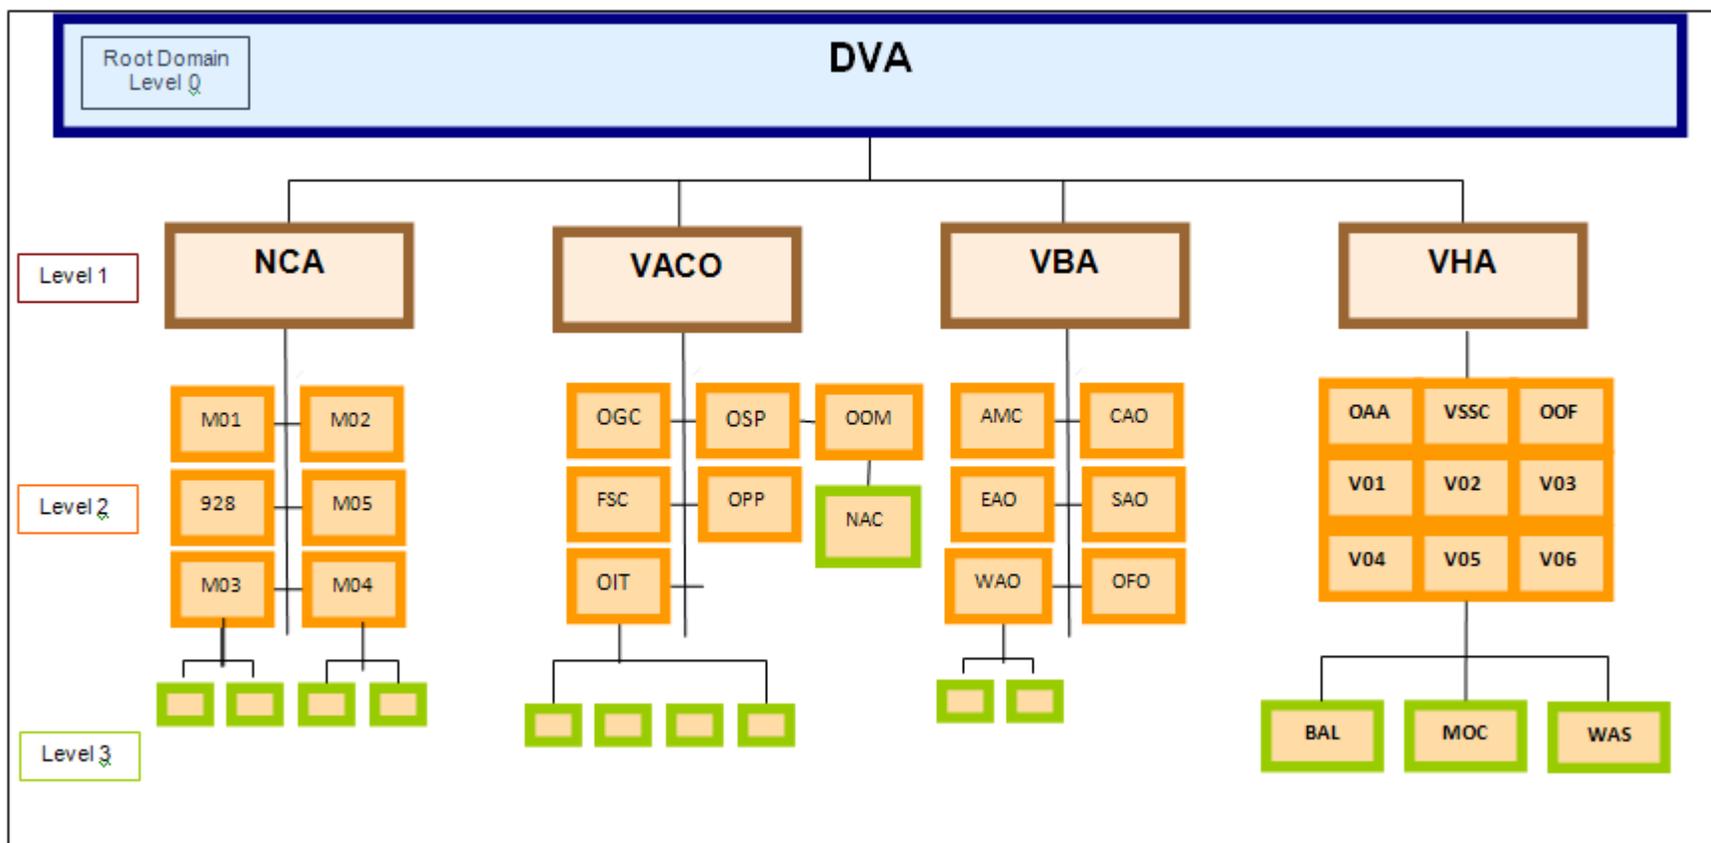

This shows the hierarchy of the 300 VA LMS domains and the parent:child relationship which enables each subordinate domain's information to be accessible to the higher level domains.

How To Use This:

This provides background information on VA LMS.

VA LMS Domain Structure

The VA LMS domain structure is a hierarchy that very closely maps to the VA's organizational structure. This parent:child relationship enables each subordinate domain's information to be accessible to the higher level domains. In VA LMS, domains are used to manage learners, administrators, courses (items), catalogs, facilities, locations and permission to access data.

Some of the 300+ domains in the VA LMS hierarchy are listed in the table on the following pages.
