

## VA LMS Phase II Toolkit Purpose and Contents

The VA LMS Phase II Toolkit is designed to help VA LMS Phase I Administrators, Phase II Domain and Learning Managers, VHA Designated Learning Offices (DLOs), and others prepare their organization for Phase II implementation.

- ❖ Items 1-9 will be used to support local conversations and decisions necessary for each VISN to move its learners to a single system for accessing and recording training.
- ❖ The reference documents are resource materials that provide valuable background and historical information.
- ❖ Each toolkit item is prefaced with descriptive information about its purpose and intended use.

Toolkit items will be added incrementally and will be posted on the Phase II Transition page of InsideLMS at: <http://www.insidelms.va.gov/InsideLMS/insideLMSpages/phase2.shtm>.

### Contents:

Item #	Title
0	Toolkit Purpose and Contents
